BSA Troop 413

San Clemente Beach Trip

Scouts enjoyed their stay at the beach by burying themselves in the sand, making castles, and swimming leisurely in the water. There was a strong rip current, but thanks to the lifeguards on duty, everyone was fine.

Eagle Scout Projects

Since the last court of honor, we have had Eagle scout projects from Justin Wong-Lara, Alessandro Villain, Mark MacRunnel, James Johnson and Samuel Saruwatari.

Memorial Day Flag Planting

The scouts had a great time adding American flags to the graves of veterans. In the end, there were still a few graves that we missed, but we were able to come back and add flags to them.

Pancake Breakfast

The Pancake breakfast was a huge success. Scouts had a blast whipping up pancakes for all the scouts and adults around them. This event was a great and fun experience for all of the troop.

Rocket Launch Trip

The Rocket Trip was one to remember. Scouts built their own model rockets and flew them across Lucerne Lakebed, only having to chase them down in the wind. While launching, we were visited by a large swarm of bees. It was strange, and only one person got stung-by a dead bee that fell on him

Water Sports

Instead of taking the swimming test in the cold water at Summer Camp, scouts were able to take it at Cabrillo Youth Center. We enjoyed seeing the large variety of fish on display there along with the touch tanks open to the public.
